BIO

Miki's sets are journeys, composed with a dexterity that translates into both his experience and his talent for reading the crowd, feeling the moment and its context. With a natural enthusiasm. A generous and friendly nature; with a knowledge, a respect for his craft, but also an open-minded and avant-garde vision, he has the gift of creating immersive, even psychedelic sound experiences: special moments on the dance floor.

Along with music productions, from techno to chill-out in particular as Miki The Dolphin and Major Hypnotic Key Institute, which always create attention around MIKI, highlighting his concept of music versatility, an important aspect for the development of today's Dj culture. The constant research, the great resonance intuitions and a natural talent for djing, see him among the architects of the electronic movement, one of the most active, loved by many DJS and clubbers of the new generation, with his gratitude to be an inspiration for many of them.

A&R and producer for Seekers, he produces music on remarkable vinyl labels like Interactive Test, Life of Marvin, Howl rec., Kalahari Oyster Cult, Spazio Tempo, Outer Place with a great activity with acknowledgments and an even greater esteem from the whole music system. Founder of Sun Generation Records, his own label that he started back in 1999, he has always found talents by placing music at the centre and seeking interactions in world music and jazz.
